Spring and autumn are widely regarded as the best times to visit Armenia. Georgia has a temperate climate with warm dry periods from June to September. Azerbaijan also experiences extremes of climate: while Baku and the Caspian coastal areas are hot and humid in mid-summer, May to September are the best months to visit the mountainous north-west. Hike in the stunning Caucasus Mountains, bathe in the Black Sea, explore lush, church-studded hills, laze on the shores of Lake Sevan and enjoy generous local hospitality. Connect with the diverse cultures and wide-ranging landscapes of the South Caucasus. Enjoy fine wines from Georgia and tasty Armenian cognac.
