The best time to travel to Vietnam are the months of April, May or October. It gets pretty crowded from November to March and in July and August during high season. Some travelers like to time a visit with Vietnamese New Year, the biggest festival in the calendar, which falls in late January or early February. Blessed with a ravishing coastline, emerald-green mountains, breathtaking national parks, dynamic cities, outstanding cultural interest and one of the world's best cuisines, Vietnam has it all. Cruise an azure ocean pierced by surreal-looking limestone islands in Halong Bay, the bewitching backwaters of the Mekong Delta. Experience the energy of big-city life in Vietnam's capital Hanoi, the grand old lady of the Orient, and Ho Chi Minh City, the engine room of the economy and the nation.
